November 13, 2023

This is a Letter of Intent

Dear Des Moines Lake Association,

We understand that the Des Moines Lake Association is in the process of applying for a Wisconsin DNR Surface Water Grant and wishes to install a new Watercraft Decontamination System (WDS) that will service the Des Moines Lake and Long Lake public landing in the Town of Webb Lake.

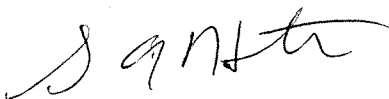

Assuming the grant gets approved, Long Lake Property Owners Association will be donating half of the budgeted expenses that are the responsibility of the applicant, up to \$7,000.00. Long Lake Property Owners Association will also donate up to forty (40) hours of volunteer labor toward this project.

The financial and labor hour donations are contingent pending grant approval, approval by the membership of Long Lake Property Owners Association and pending a fully executed agreement, by both parties, between Des Moines Lake Association and Long Lake Property Owners Association pertaining to the WDS.

These donations are for helping to pay for and build the new WDS to help protect Des Moines Lake and Long Lake from Aquatic Invasive Species (AIS).

If you have any questions, I can be reached at 651 380-0782 or via email hunnicut17@gmail.com.

Sincerely,

Steve Hunnicut

President, Long Lake Property Owners Association
