Woodbury, MN 55125

October 31, 2023

Dear Des Moines Lake Association,

This is a Letter of Intent.

Des Moines Lake Association wishes to install an electrical hot water pressure sprayer on the property that we own which is near the Des Moines Lake and Long Lake public landing in the Town of Webb Lake. While the Town of Webb Lake owns the road and public landing, we understand that some or perhaps even all the equipment may reside on our personal property. The purpose of this system is to decontaminate watercraft to prevent Aquatic Invasive Species (AIS) from entering and leaving Des Moines Lake and Long Lake.

We approve the Des Moines Lake Association request for the above items being installed either on our property or on the Town of Webb Lake property or a combination thereof.

I hope this letter addresses the Wisconsin Department of Natural Resources requirement for a "letter of intent" approving the placement of the unit on our property and/or the Town of Webb Lake property.

If there are questions, Jill can be reached at 715-281-8954 or [jnm52halle@gmail.com](mailto:jnm52halle@gmail.com), and Mark can be reached at 715-281-8953 or [mfmichel71@gmail.com](mailto:mfmichel71@gmail.com), and Sean can be reached at 612-849-7751 or [seanemichel@gmail.com](mailto:seanemichel@gmail.com).

Sincerely,

  
Mark Michel

  
Jill Michel
