Webb Lake, WI 54830

Des Moines Lake Association
1521 Tamberwood Trail
Woodbury, MN 55125

Dear Des Moines Lake Association,

This is a Letter of Intent.

Des Moines Lake Association wishes to install an electrical hot water pressure sprayer on the property that Webb Lake Township owns located at the Des Moines Lake and Long Lake public landing in the Town of Webb Lake. The purpose of this system is to decontaminate watercraft to prevent Aquatic Invasive Species (AIS) from entering and leaving Des Moines Lake and Long Lake.

The township board approves the Des Moines Lake Association request for the above items being installed on the Town of Webb Lake property.

I hope this letter addresses the Wisconsin Department of Natural Resources requirement for a "letter of intent" approving the placement of the unit on the Town of Webb Lake property.

If there are questions, I can be reached at 715.791.9015 or saustin.townofwebblake@gmail.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Austin", with a long horizontal flourish extending to the right.

Steve Austin

Town of Webb Lake Chairman
