Subject: Surface Water Grant Application Status - Proposed Funding List

Dear Surface Water Grant Applicant:

You will find the FY2024 Surface Water Grant Proposed Funding List attached. You are receiving this email because one or more of your submitted grant applications ranked well enough to receive an award. Congratulations! In total, applicants submitted 428 applications requesting over \$9 million. The decision-making process was a difficult one, with only \$6.2 million in state funding available for awards. Thank you for taking the time to submit an excellent proposal.

You may expect to receive a grant agreement by March 15th. The start date on your grant agreement will be March 15, 2024. In the meanwhile, please revisit Section 9 & 10 of the Surface Water Grant Program Guidance as you prepare to manage your grant award and start work on your project. It is important that you are familiar with our generally accepted accounting principles and best practices to ensure that you are eligible for your full reimbursement. Please note that any expenses incurred prior to the March 15 start date on your grant agreement will not be eligible for reimbursement.

Our staff looks forward to continuing to collaborate with you to help protect and restore Wisconsin's surface waters.

Sincerely,

Laura MacFarland
